

CUSTOMER: Lamas
PROJECT NAME: Refurbishment of Grain Silos, Zimbabwe
APPLICATION: Concrete Refurbishment

PROJECT DESCRIPTION

The contractor on this project required access to series of concrete grain storage silos in Zimbabwe in order to carry out concrete repairs and then apply a coating to the external surfaces.

A total of 12 x 4m platforms were installed and moved to various locations in Zimbabwe over a period of 4 months.

The contractor did the installation and moves and SkyJacks provided a Supervisor to oversee the initial installation and operation and to provide training to the contractors site team.
