Powered Access, Lifting & Handling

**“ SkyJacks is about safety,
efficiency, reliability and
customer service ”**

For over 45 years SkyJacks has been trusted to provide innovative and safe solutions to working at height.

SkyJacks is the Southern African distributor for leading OEM's and offers a comprehensive range of access and lifting equipment and related services. This includes temporary suspended platforms, mobile elevated work platforms, telehandlers, construction hoists and mini cranes as well as a comprehensive selection of lifting products. Our workshop and load testing & inspection services ensure that you are legally compliant and our training and learning services enable your staff to be qualified, efficient and safe.

The SkyJacks team live by a set of values and are driven by our shared purpose of making it possible for people, companies, communities and environments to thrive. We are part of Waco International, an equipment rental and industrial services business with operations throughout Southern Africa and other selected sub-Saharan African countries, Australia and New Zealand.

Temporary Suspended Platforms

WORK SAFELY AT HEIGHT

Since 1978, SkyJacks has been supplying temporary suspended platforms to the mining, construction and industrial maintenance sectors in Southern Africa. Fast and easy to erect and operate, SkyJacks suspended platforms are a safe and economic access solution for contractors. Our trained technicians and operators offer a 24/7 customer support service.

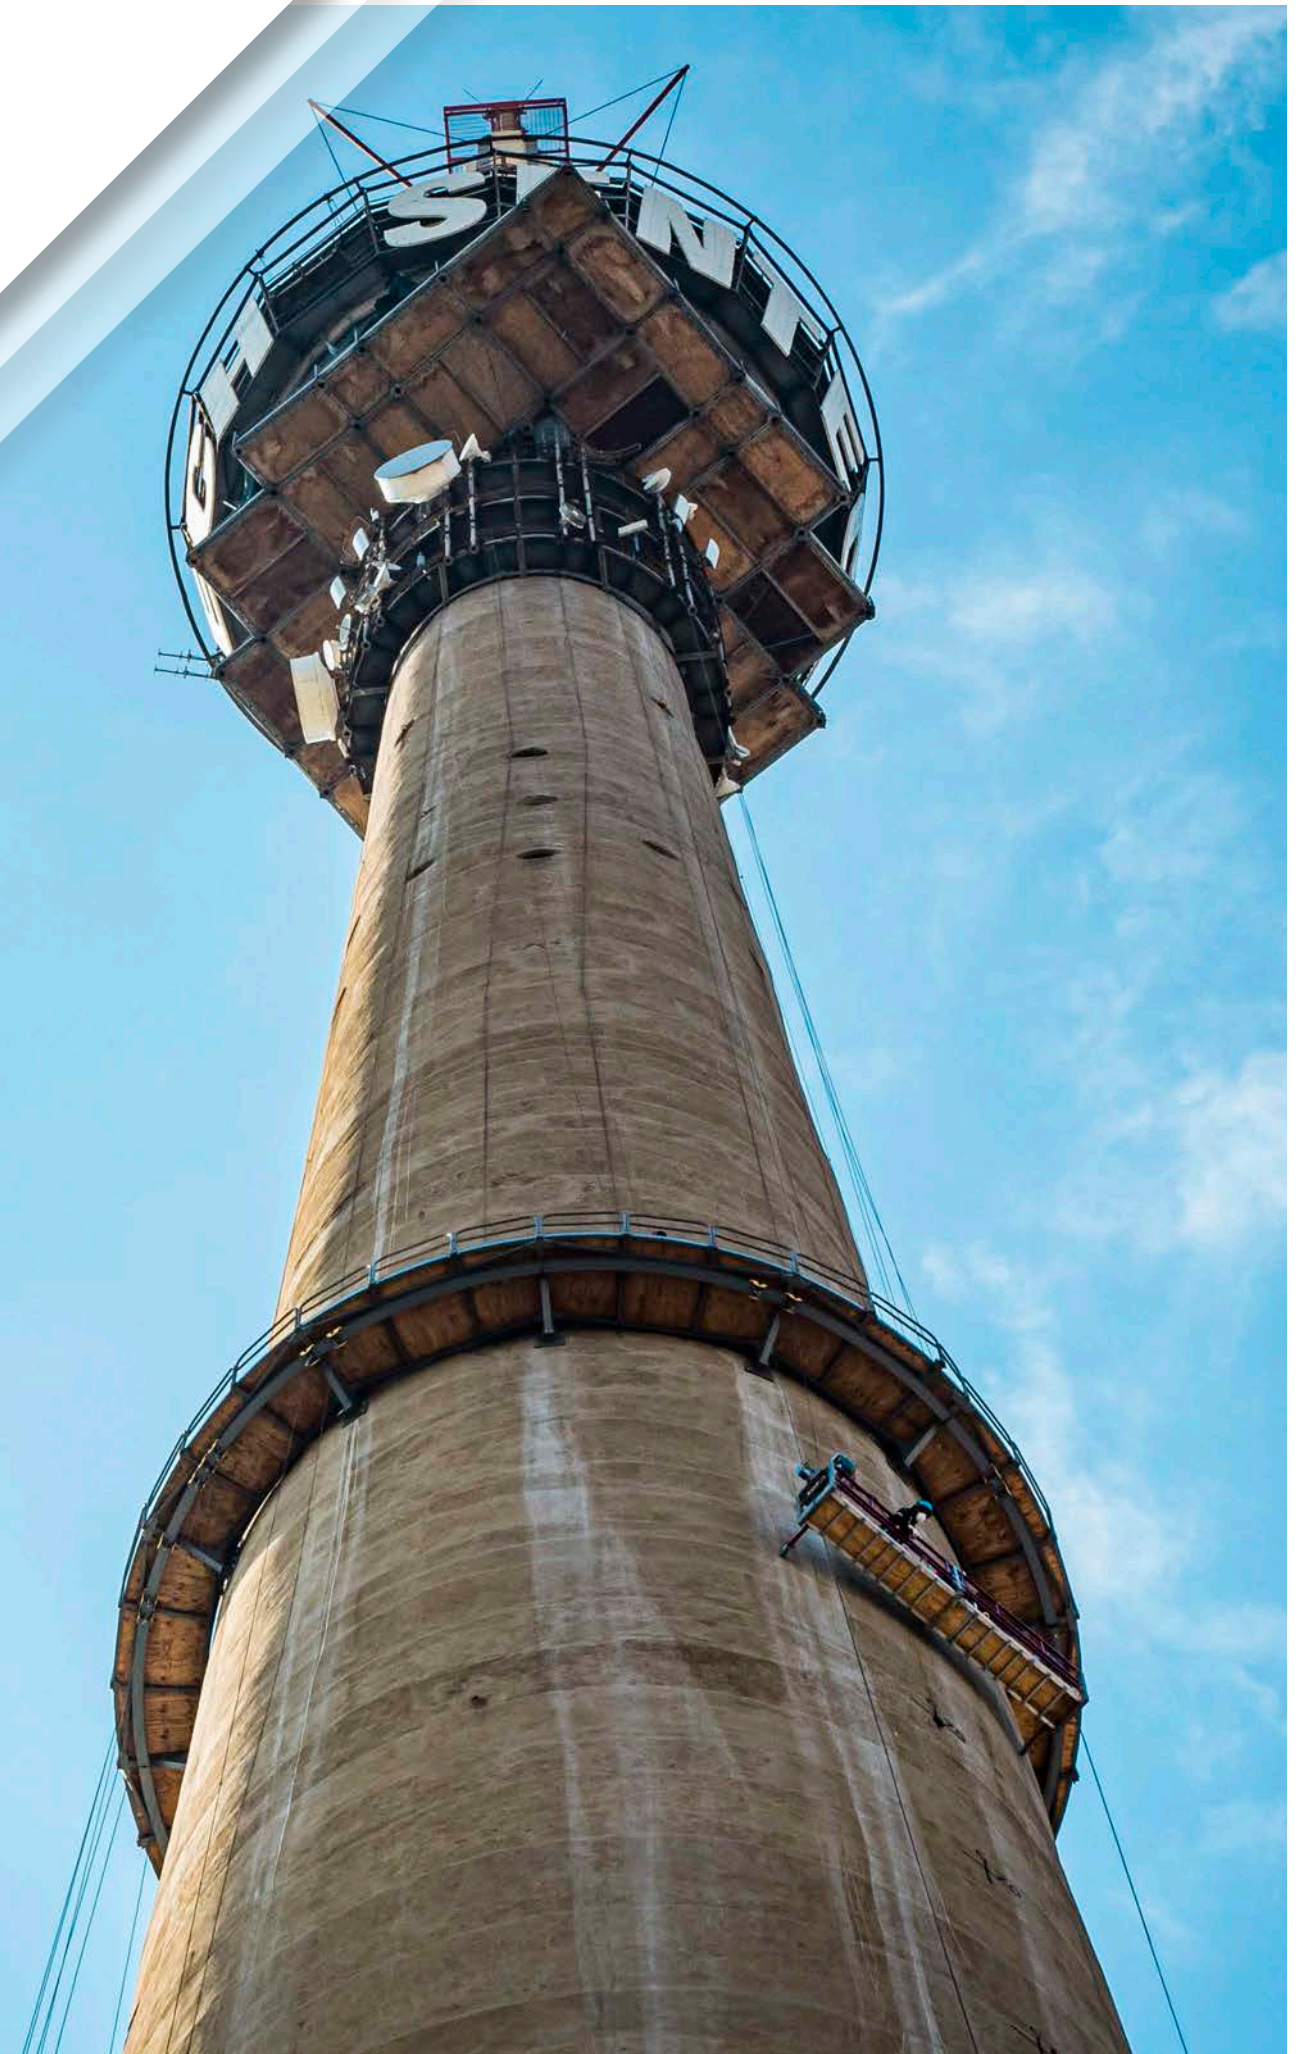

SkyJacks is South Africa's sole distributor of the trusted Sky Climber Alpha and Compact hoists.

SkyJacks offers:

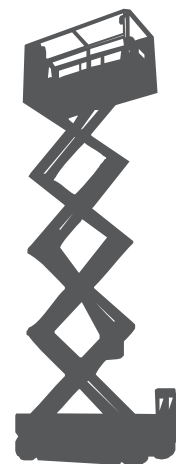

- Electric or manual hoists and lightweight platforms
- Design and manufacture of custom platforms for special applications
- Installation of Temporary Suspended Platforms (TSP's)
- Supply of operators
- Hire and buy options

**// Over four decades
of experience in safe and
efficient suspended platforms //**

Mobile Elevated Work Platforms

Mobile Elevated Work Platforms (MEWPs) are used to lift people and equipment safely to height for construction, maintenance and a variety of other tasks.

SkyJacks has an extensive rental fleet of boom lifts, scissor lifts and vertical lifts ranging in height from 6m to 44m. Choose a diesel powered machine for outdoor use or an electric option when a quiet, emission-free operation is required. Our trained technicians offer a 24/7 customer support service for hired equipment.

As the official distributor for Dingli in Southern Africa, SkyJacks sells a wide range of MEWP's at competitive prices. Dingli produces a comprehensive range of Diesel, Electric and Hybrid machines which are exported to more than 80 countries including high end markets in the USA, Europe and Japan.

Full OEM back-up is available including comprehensive warranty, service, parts, training and technical support.

“ Dingli is one of the Top 3 Global Manufacturers of Mobile Elevated Work Platforms ”

Telehandlers

SkyJacks' rental fleet of versatile telehandlers can be fitted with a range of attachments including forks, material buckets, concrete ladles and Skyhooks. All are easily changed to suit the application at hand. Models range from 2.5 ton/6m to 4 ton/17m. If required, units can be hired with a licensed operator and our trained technicians offer a 24/7 support service.

SkyJacks is the official sales partner of Faresin in Southern Africa and offer a range of telehandlers for sale. The Faresin range of telehandlers offers models with boom length from 6 to 17 metres with lifting capacity from 2.6 to 7 tons, able to offer the right solution for every type of work and perfectly suited to the South African agricultural, construction and mining sectors.

Faresin's innovative approach allows us to equip each model in a variety of configurations, which differ in terms of performance and options but ensure maximum comfort and efficiency. The range of Faresin telehandlers also includes full electric models, which contribute to the reduction of CO₂ emissions.

Full OEM back-up is available including comprehensive warranty, service, parts, training and technical support.

**// Technology that builds
a better tomorrow //**

Mini Cranes

SkyJacks offers Jekko's advanced range of telescopic mini-cranes and articulated crawler cranes.

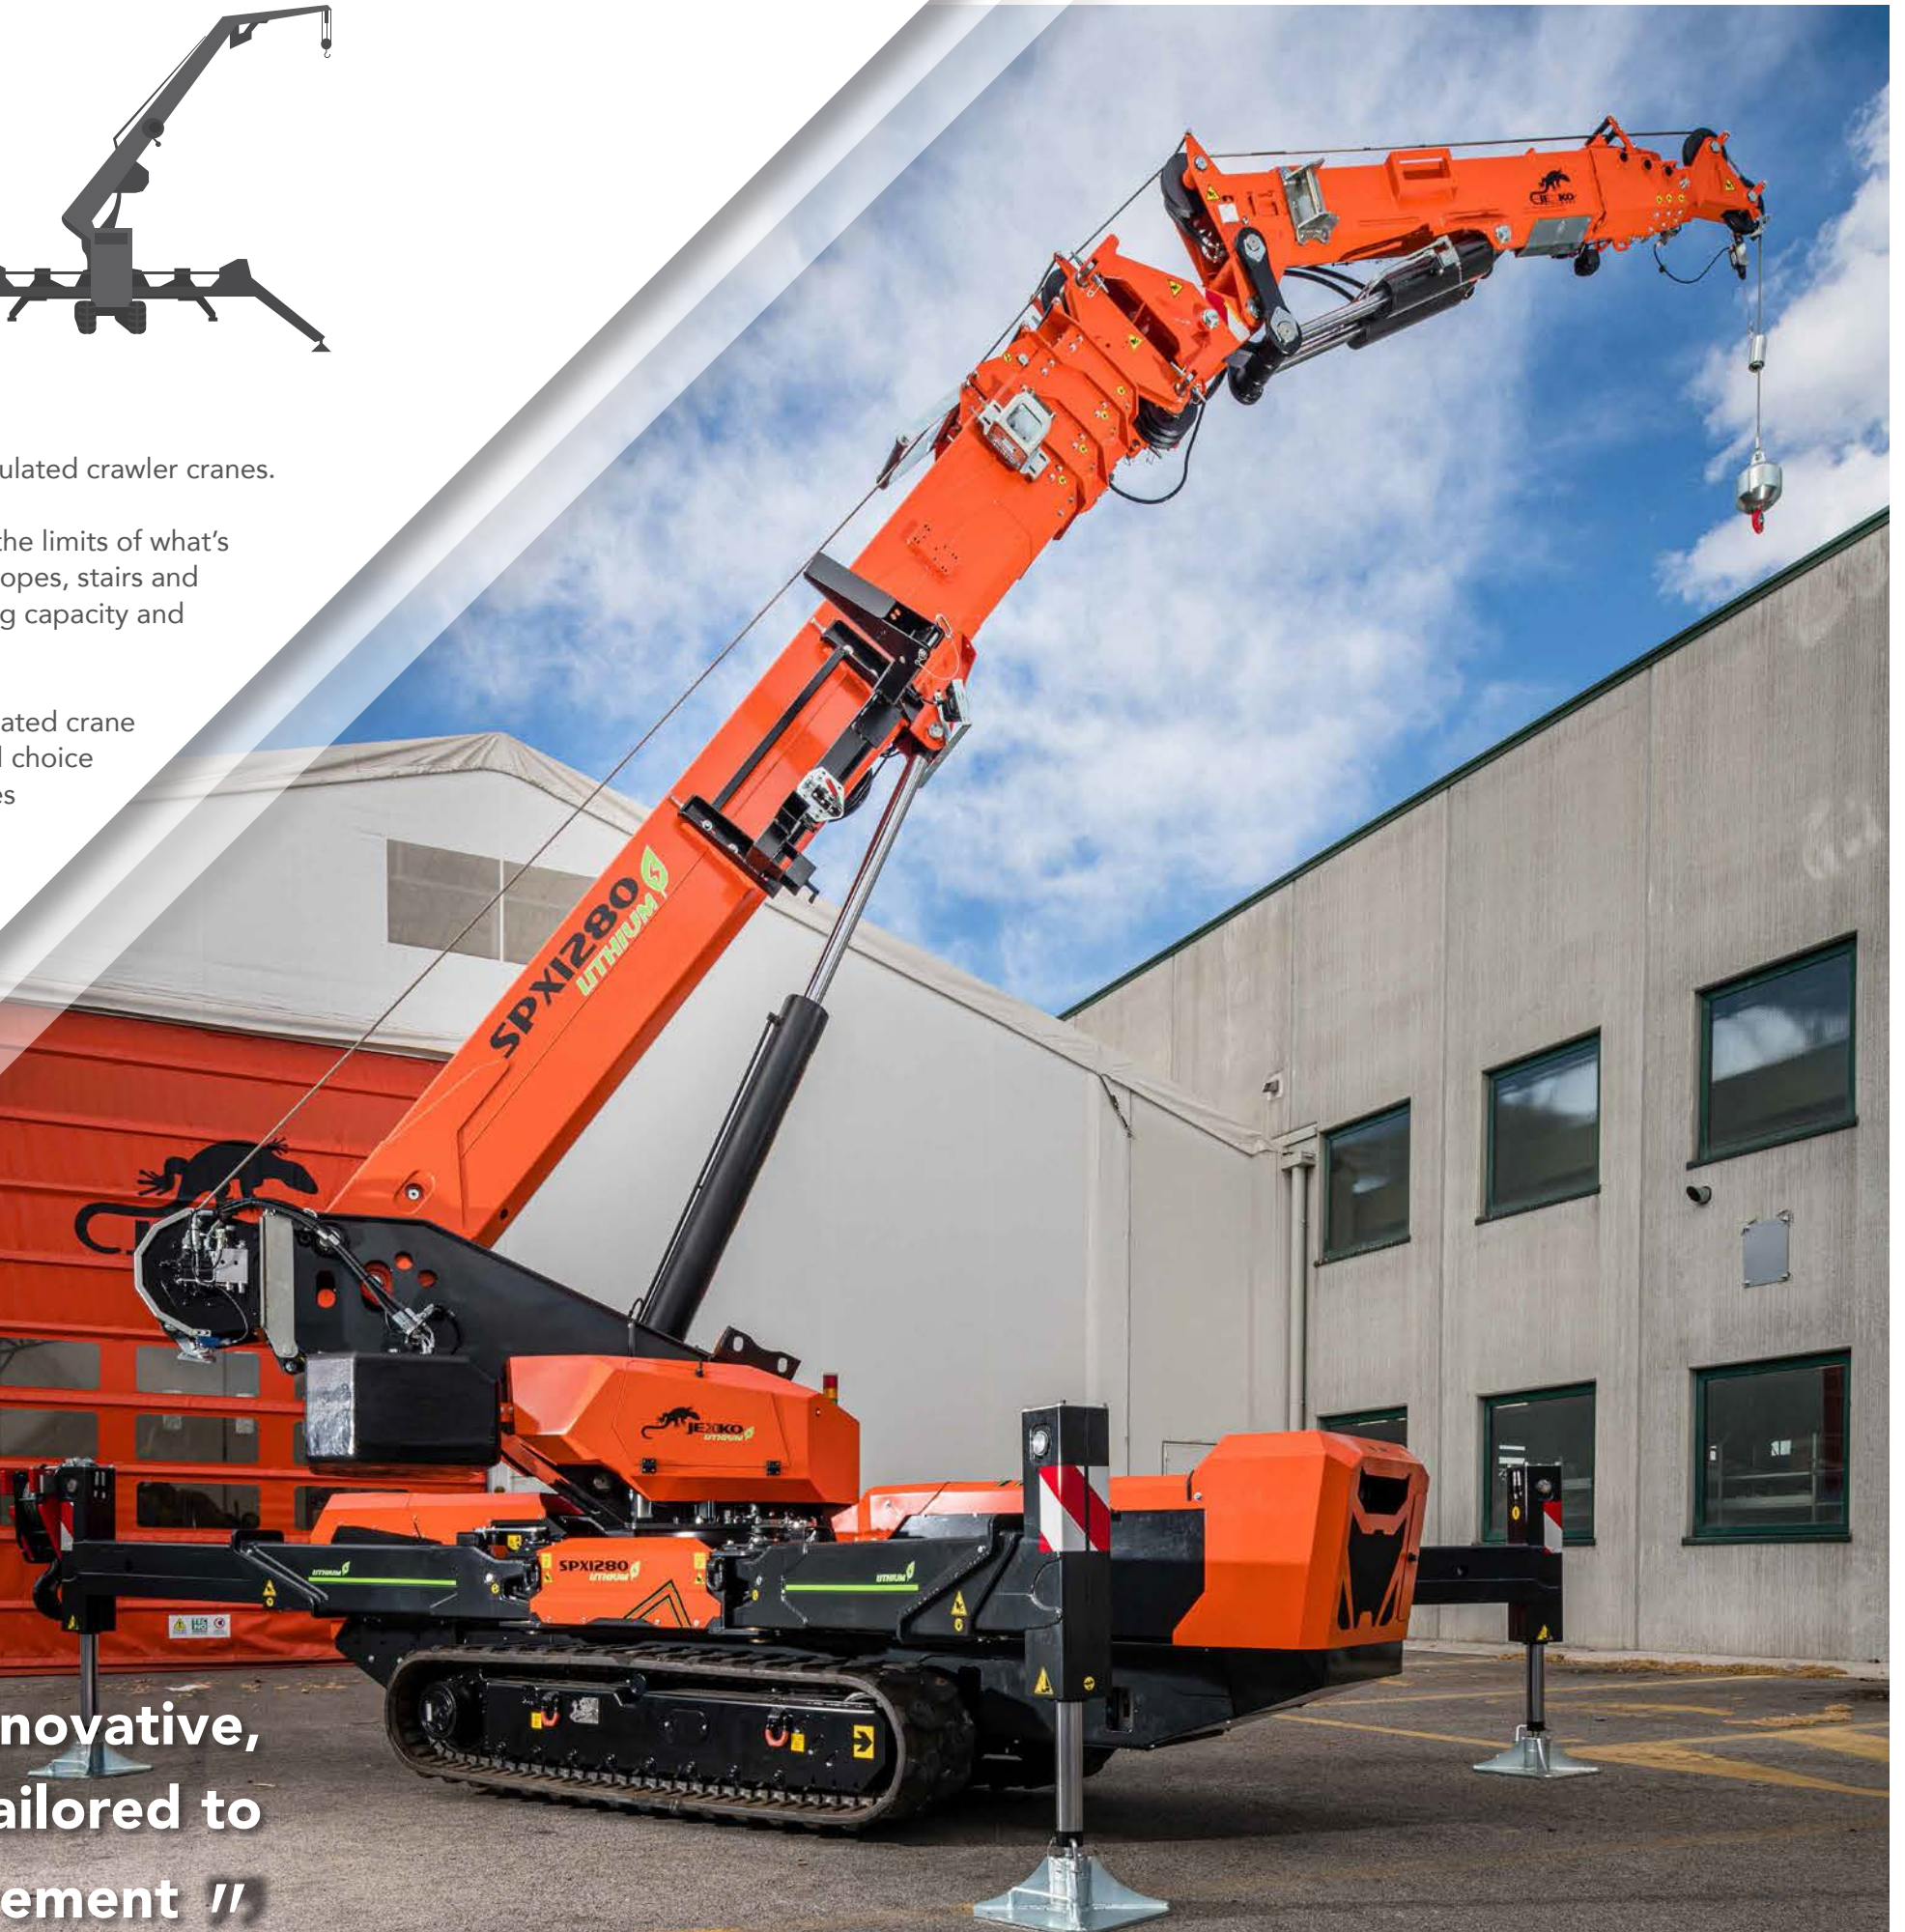

The SPX range of telescopic crawler mini cranes with outriggers stretches the limits of what's possible. Easily transported through narrow and confined spaces such as slopes, stairs and passageways these machines have minimal set-up time and offer high lifting capacity and excellent worksite safety.

The JF series of articulated crawler cranes combines versatility of an articulated crane with the excellent stability provided by the tracks. The JF series is the ideal choice to face any challenge, to work on uneven ground or difficult-to-reach places while lifting loads that used to be impossible to handle.

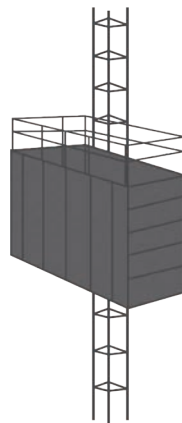

As the official distributor of Jekko, full OEM back-up is available including comprehensive warranty, service, parts, training and technical support.

**// Trust Jekko for innovative,
reliable solutions tailored to
any project requirement //**

Construction Hoists

SkyJacks has a range of construction hoists for hire with load capacities from 300kg to 2 500kg. We can offer the appropriate lift solution for virtually every construction challenge in every industry sector. Providing a cost-effective solution to your vertical transportation of materials, equipment and personnel, construction hoists boost productivity and safety on your construction and maintenance projects.

SkyJacks is the official distributor of GEDA in Southern Africa. GEDA is world renowned for safe and secure hoist solutions. GEDA hoists guarantee the smooth, efficient and safe transportation of people and materials to where they are required. The versatile applications of GEDA hoists cover construction sites, cement works, asphalt mixing plants, chemical plants, power stations, silos and offshore plants.

The modular design provides customers with the choice of different car dimensions, load capacities of 300kg to 3 200kg and hoisting speeds of up to 60m/min.

Full OEM back-up is available including comprehensive warranty, service, parts, training and technical support.

**“ Move materials, equipment
and personnel safely and
efficiently ”**

Lifting Equipment

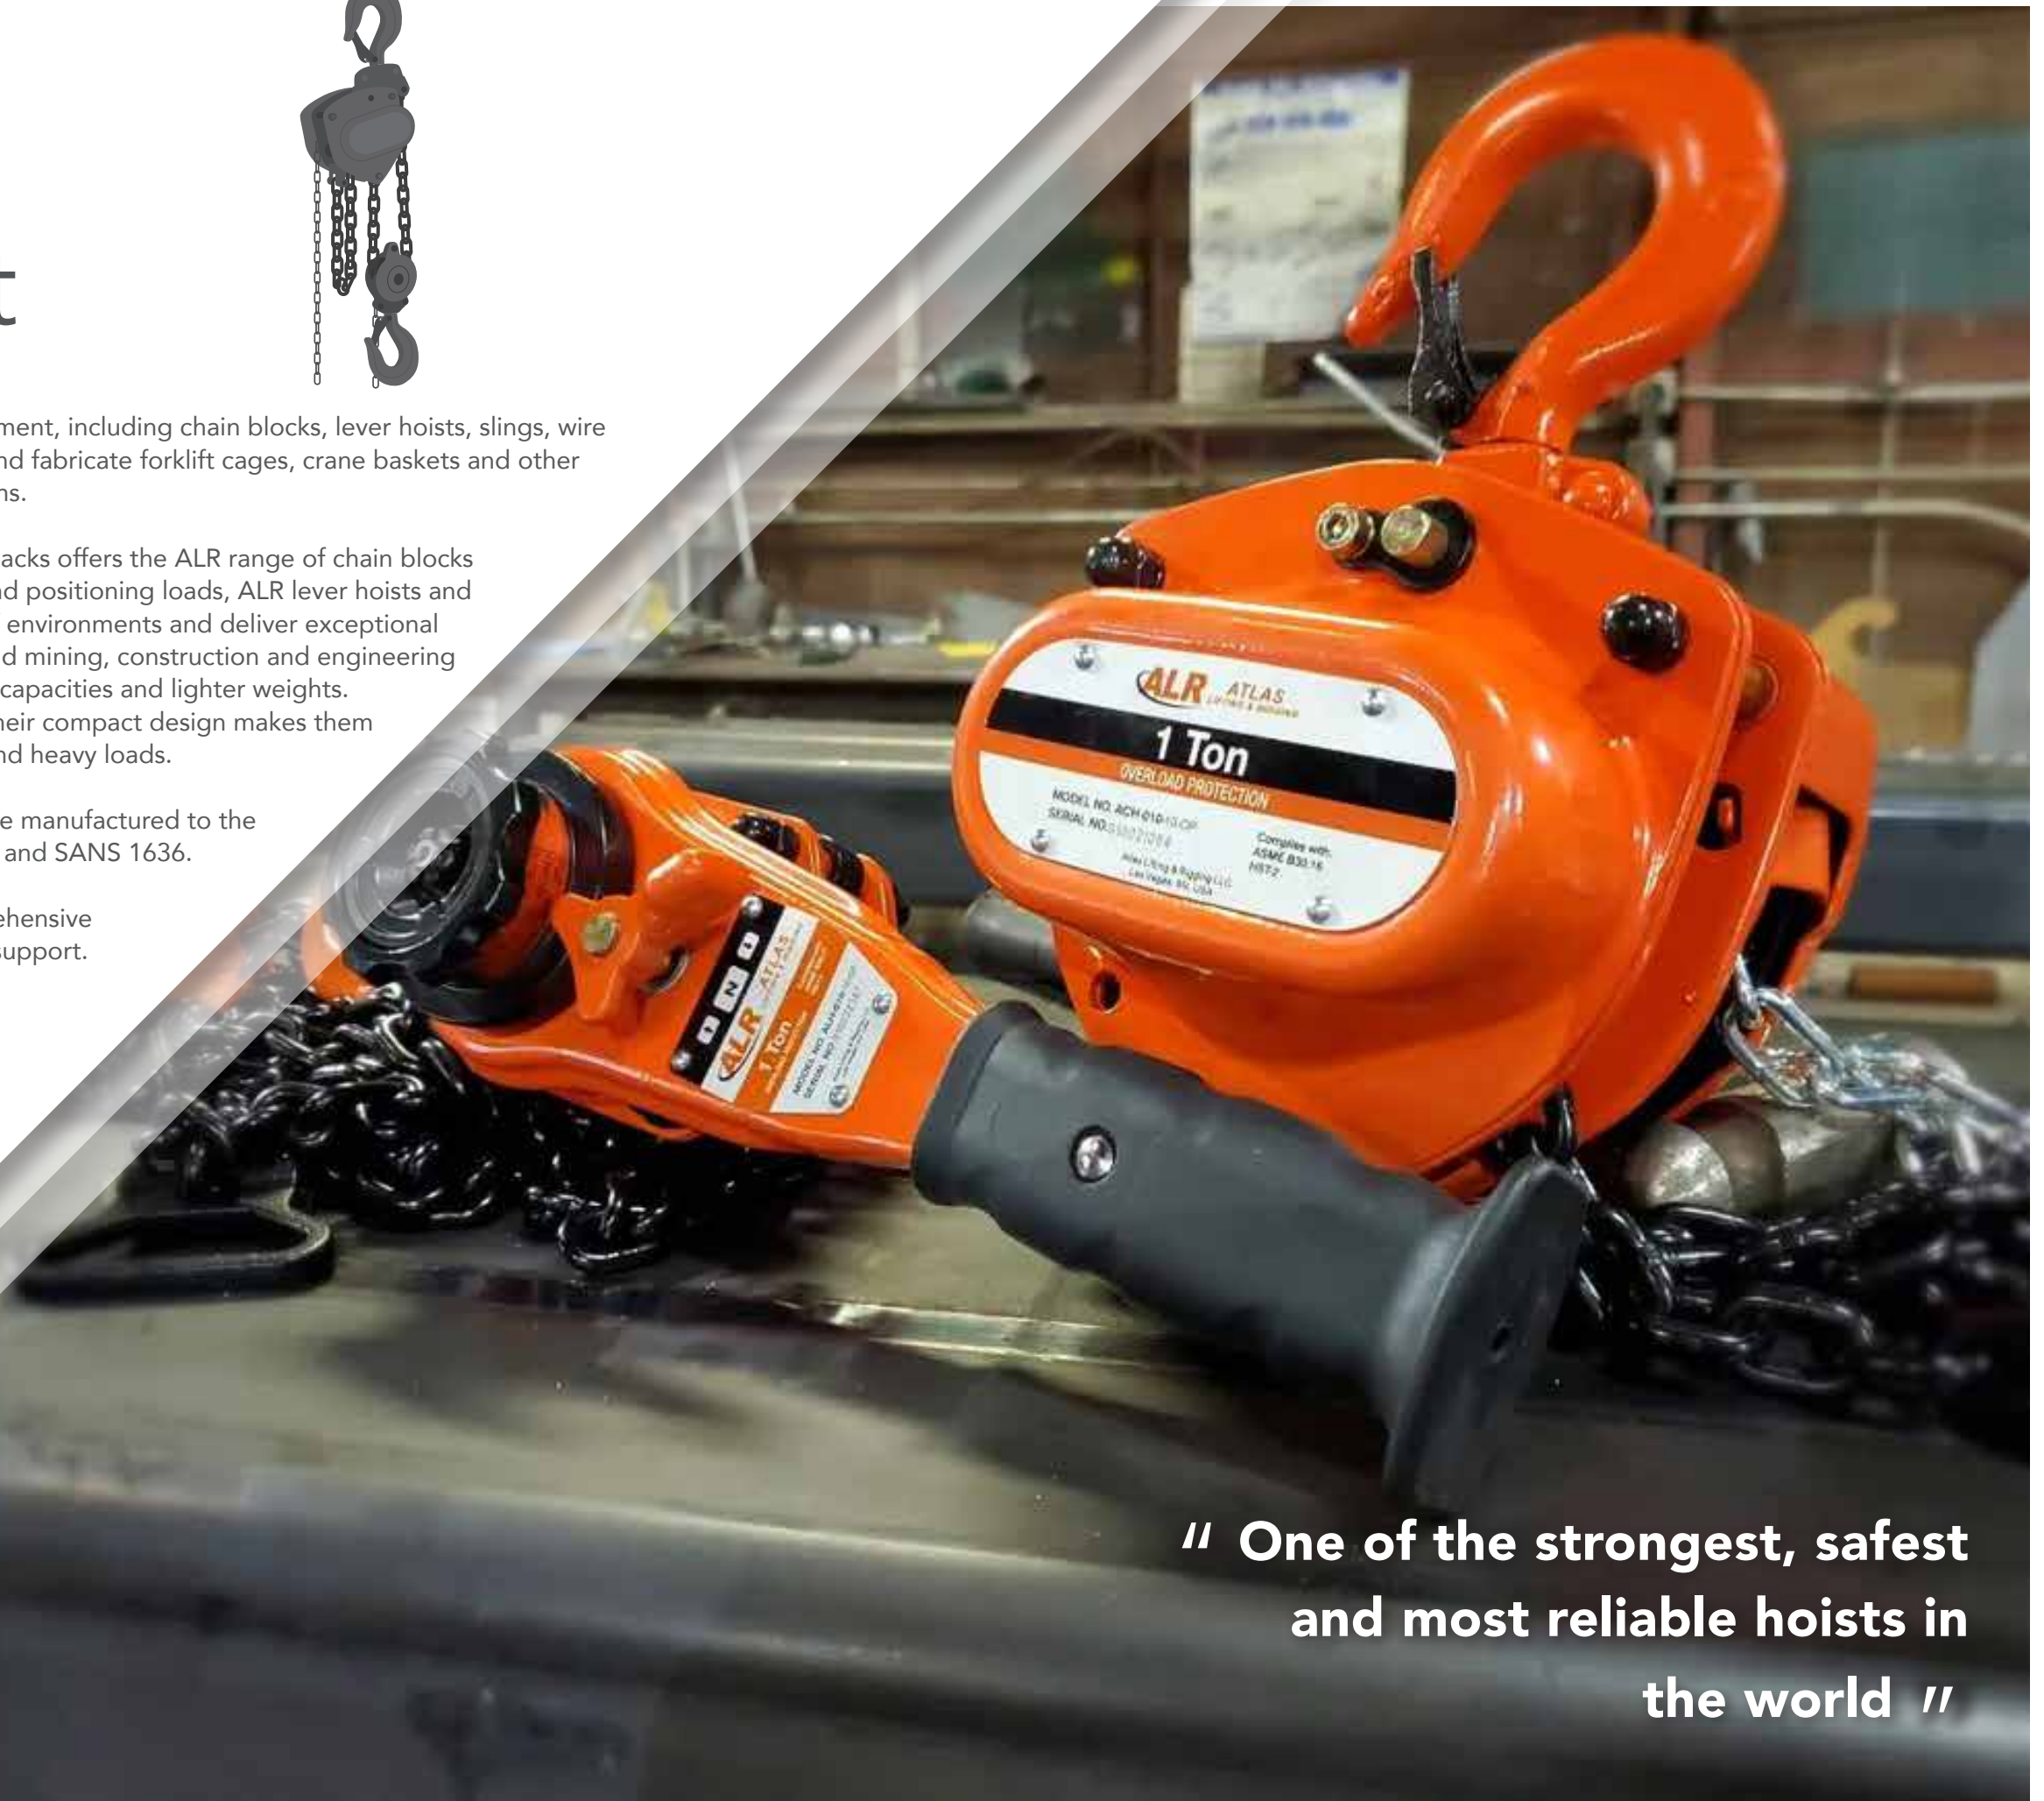

SkyJacks supplies a wide range of lifting equipment, including chain blocks, lever hoists, slings, wire ropes, and rigging hardware. We also design and fabricate forklift cages, crane baskets and other 'below hook' lifting devices such as lifting beams.

As the official Southern African distributor SkyJacks offers the ALR range of chain blocks and lever hoists. Designed for pulling, lifting and positioning loads, ALR lever hoists and chain blocks are engineered for the harshest of environments and deliver exceptional durability. Specifically designed for underground mining, construction and engineering applications they offer enhanced working load capacities and lighter weights. Loaded with industry leading safety features, their compact design makes them light weight and durable for confined spaces and heavy loads.

ALR Industrial Chain Blocks and Lever Hoists are manufactured to the highest standards and comply with SANS 1594 and SANS 1636.

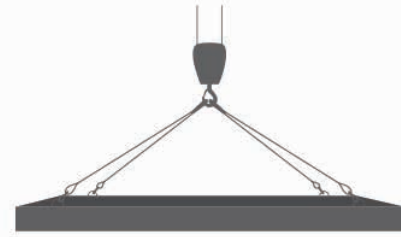

Full OEM back-up is available including comprehensive warranty, service, parts, training and technical support.

Load Testing Services

// Making sure you are compliant and safe //

SkyJacks is registered with the Department of Employment and Labour as a Lifting Machinery Entity (LME). Our LME registration covers multiple equipment categories and our team of professional Lifting Machinery Inspectors (LMI) provide a range of high quality cost effective on site services.

SkyJacks is certified to carry out load tests and inspections on an extensive range of lifting equipment including:

Equipment

- MEWP's
- Forklifts
- Tail Lifts
- Lifting Tackle Beams
- Temporary Suspended Platforms

Cranes

- Mobile Cranes
- Jib Cranes
- Tower Cranes
- Truck Mounted Cranes
- Overhead Cranes

Hoists

- Electric Hoists
- Lever & Chain Hoists
- Vehicle Hoists
- Manual Chain Hoists

This certification speaks to our commitment to quality, safety and adherence to industry standards so you can trust that your lifting equipment is in the hands of certified professionals.

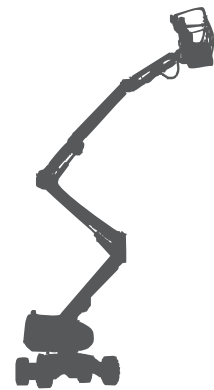

SkyJacks employs the latest available inspection software using real-time data to ensure efficiency, safety and compliance.

Operator Training

SkyJacks offers accredited training for the operation of Mobile Elevating Work Platforms, Telescopic Boom Handlers and Mini Cranes as well as the Operation, Erection and Supervision of Temporary Suspended Platforms and Construction Hoists.

Our unit standard courses are accredited through TETA and CETA and we are a member of the Institute for Working at Heights Professional Body. Our Assessors and Moderators are registered with the various SETA's.

Lifting Courses

We offer a wide range of bespoke training courses, coaching and mentoring programmes for prospective Lifting Tackle Inspectors (LTI) and Lifting Machinery Inspectors (LMI) as well as CPD courses for ECSA registered professionals.

Driven By Our Values & Purpose

It's easy to see what we do through the equipment we supply and the services we deliver. However, what drives us is our purpose of enabling a better tomorrow, everyday. We make it possible for people, companies, communities and environments to thrive.

At the heart of this lies a deep commitment to community and SkyJacks is privileged to support some inspiring organisations by investing our time and resources. This includes the Dzulani Children's and Youth Care Centre in Vosloorus, the Germiston-Bedfordview SPCA and the St Francis Care Centre in Boksburg which runs both a children's care centre and an adult hospice. This support is aimed at helping organisations that foster positive change within the communities they serve.

What We Value:

Care of our People

Zero Harm

Performance

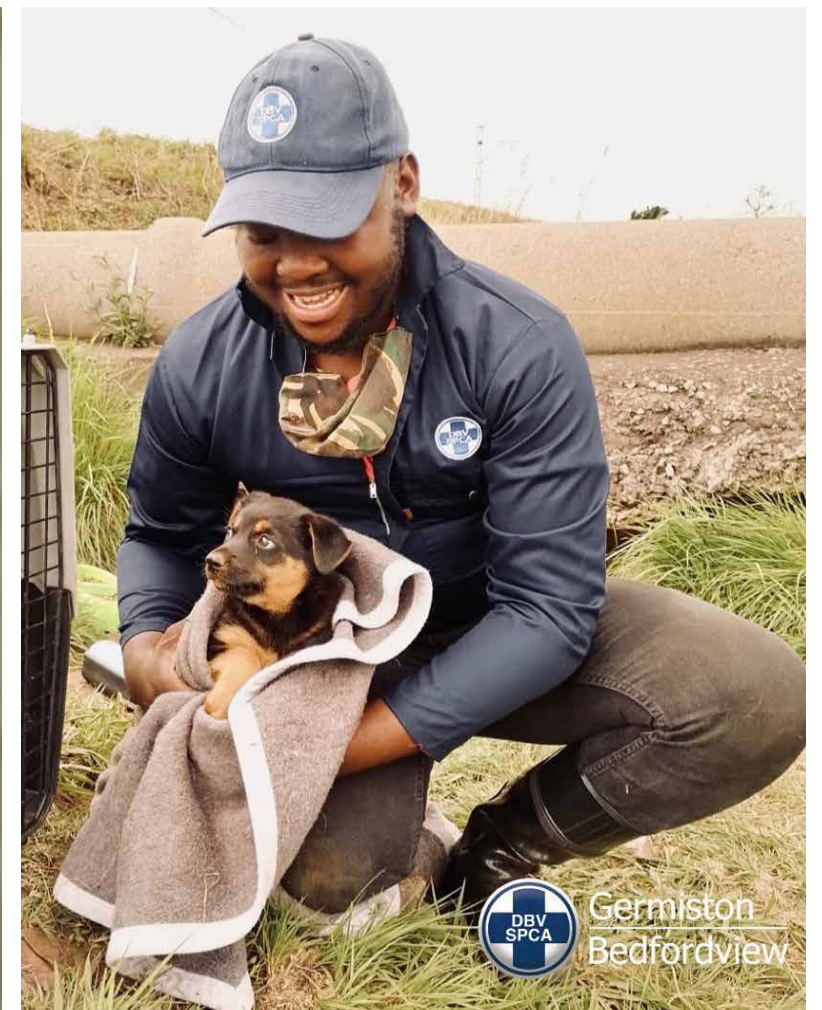

Innovation

Customer Centricity

// Enabling a better tomorrow, everyday //

Safety & Accreditation

Safety is a core value at SkyJacks and is critical to ensuring the well-being of our employees, customers and communities. Since 1978, SkyJacks has been entrusted with providing our customers with safe and cost effective solutions. We take our responsibilities seriously and are relentless in our commitment to preventing injuries and accidents, as demonstrated by our comprehensive accreditation, extensive staff training, and rigorous equipment maintenance.
